A cablegram has also been received A ciblegram has also been received from Mr. Fowler, American Consul-General at Chefoo, stating that two Japanese torpedo boats entered the harbor and attacked the Russian torpedo boat which arrived there several days ago, and dismantled, captured her and took been. and took her out.

Cutting Out Expedition.

Mr. Fowler stoke of the affair as a "cutting out" expedition, thereby differing in an important point from the press dispatches, which, at first reading, appeared to indicate that the seizure of the Russian boat was in at least some degree caused by the action of the capdegree caused by the action of the cap-tain of the craft in attacking the Japan-ese boarding Lieutemant. It may be that upon this point will turn the decision as to whether there has been a violation of Chinese neutrality by the Japanese.

of Chinese neutrality by the Japanese. If the expedition was a genuine cutting out one, then there is no question in the minds of the officials here that the Japanese have committed an offense against international law by violating Chinese neutrality, and in addition have broken the agreement they entered into at the beginning of the war at the inat the beginning of the war, at the in-stance of the United States Government, to limit the field of warlike operations to Manchuria and Korea and their wa-ters. Should this prove to be the case, the results probably will be grave and varying.

Complications Will Follow.

Under the tenets of international law, the captured vessel must be returned to the custody of the Chinese Government, and an apology rendered for the offense against Chinese neutrality. But if Rus-sian lives have been lost, as reported in the press disputches, a greater complica-tion will follow, for Russia may in turn hold China responsible for the punishment of the Japanese who caused the death of her sailors when under the shelter of the Chinese port authorities. Altogether the situation is full of dan-

ger, and the many apprehensions of the officials here is that it may be the incident that will break down the agreement of the powers and plunge China into the war as a full-fledged belligerent and ally of Japan. The consequences of such an act on China's part upon existing alliances between Great Britain and Japan and Russia and France can only be contextured and the presence is so be conjectured, and the prospect is so alarming that it is not doubted the State department will do its utmost along with the rest of the powers, to effect such a settlement of this incident as shall preserve the agreement as to China

WARSHIPS AT TSING CHOU.

Russian Fighting Machines Reach Chinese Port.

CHEFOO, Aug. 12.-An undoubted authority confirms the reports that Russian warships have arrived at Tsing Chou. He says they consist of the protected cruisers Novik and Askold and a battleship of the Czarevitch type. Two of them and one torpedo-boat destroyer, he adds, are taking Car-

diff coal on board.

Three cruisers and one torpedo-boat destroyer are now nearing Shanghai. There are indications that the re-mainder of the Russian squadron has returned to Port Arthur.

The Japanese are guarding all points. GRAVE MATTER FOR JAPAN.

Russia Will Promptly Call Attention of Powers to Breach of Neutrality.

ST PETERSBURG, Aug. 12 -The action of the Japanese torpedo-boat destroyers in attacking and towing out the defenseless Russian torpedo-boat destroyer Ryeshitelni at Chefoo is regarded in diplomatic circles as being a very grave matter for Japan. As soon as the facts are officially established no doubt exists that Russia will promptly call the attention of the powers to this

breach of neutrality of China.

Aside from the possible questionable right of an uninjured warship to seek a sanctuary in a neutral port when not forced to do so by stress of weather or lack of coal and provisions, all the dilomats agree as to the absolute illegality of belligerent ships entering neutral ports and there committing hostile acts, The case, so far as the facts are known asidered much more flagrant than that at Chemulpo, where all the foreign commanders, except the commander of the American warships there, protested against the proposal of the Japanese to enter and fight the Russian cruisers Va-ring and Korletz in a neutral harbor. Everything else, from a military standpoint, seems to be forgotten in the

general anxiety concerning the fate of the Port Arthur squadron. The future plans of the Admiralty hang upon the preservation of the bulk of the squadion, and it is not too much to say that the present is regarded as being the most critical moment of the war. The Admiralty until noon declared that it was without official advices as to the whereabouts of the squadron.

whereabouts of the squadron.

The papers consider that the squadron is taking desperate chances, but at the same time they are loud in their praise of its dash. The Russ says: "The squadron is now somewhere in Pacific waters, discharging its heroic

"One day I was advised by an old lady to try Grape-Nuts and cream, leaving off all fatty food. I had no confidence that Grape-Nuts would do all she said for me as I had tried so many things without any help. But it was so simple I thought I would give it a trial she insisted as.

Well I ate some for breakfast and

pretty soon the lady called to see her 'patient' as she called me and asked if I had tried her advice.

"Glad you did child, do you feel some better?"

"No,'I said, 'I do not know as I do, the only difference I can see is I have no sour stomach and come to think of it I haven't spit up your four teaspoons of Grane-Nuts yet."

"Nor did I ever have any trouble with Grape-Nuts then or any other time, for this food always stays down and my stomach digests it perfectly; I soon got strong and well again and bless that old lady every time I see her.

ORDERED TO LEAVE HARBOR.

German Foreign Office Sends Instructions to Tsing Chou.

BERLIN, Aug. 12 - The Foreign office onfirms the arrival last night at Tsing Chou, at the entrance to Kiao Chou bay, the German concession on the Shan Tung peninsula, of the Russian battleship Czarevitch (not the protected cruiser Ackold), the protected cruiser Novik and an unraned torpedo boat. The Czarevitch is in an unseaworthy condition, having been damaged in the fight of Wednesday. The Foreign office is sending instruc-

The Government's instructions to
Capt. Truppel, Governor of Klao Chou,
which is in the jurisdiction of the Navy
department, although explicit in that
the Novik and the torpedo boat must
leave Tsing Chou within the twentyfour-hour limit, do not, it is understood, provide for the possible refusal
of the Russian vessels to leave that
port. The Carevitch, being unseaworthy, must naturally remain in the
harbor. The Foreign office probably
will take no further action until Admiral Von Prittwitz arrives at Klao
Chou and reports on the situation.

It is suggested by one in authority
that if the Russian ships refuse to depart they will be required to disarm.

The Foreign office received a dispatch from the British Consul at Chefoo thi morning confirming the capture of the Ryeshitelni and her removal by her captors from the harbor. The Consul added that the facts were immediately reported to the Chinese Governor and the foreign diplomats at Peking.

The former evinced considerable con-cern, not so much at the fact that the attack was made on the destroyer as a the precedent established by Japan which Russia may follow in case of emergency, thereby extending the area of hostilities which Secretary Itay sought to circumscribe.

oppressively hot and in rushing the londing of the grain, Mr. Otterstrom became overheated. When the work was nearly completed he drank copiously of cold spring water. Soon afterward he complained of lilness and returned to his home in this city. Medical aid was summoned, but a lieffort sto save his life were futile. His condition grew gradually worse and after three days of suffering the deceased passed to the great beyond.

Mr. Otterstrom was one of the pioneers of this valley and has done much for the material advancement of his home town. He was recognied as one of the progressive business men of this county.

Mr. Otterstrom was a native of Norway, born in Christiana in 1850, and came to I tah in 1856. The family crossed the plain with Canute Peterson's train of emigrants, locating at Ephraim in 187. For several years they lived within the Indian fort erected in this city. The deceased has served as City Councilor and has assisted in the building of many improvements for the public.

He leaves a widow and five children. Funeral services will be conducted at the Tabernacle Sunday afternoon.

Postmaster and Mrs. Adolph. Hanson and J. N. Hason and family are visiting relatives in Cache valley this week.
